2. [redacted] Chatted briefly again with Mr. Leahy, State Department Congressional Relations, concerning the bill to amend section 305 of the Communications Act. Leahy said he planned to talk with Carl Marcy, of the Senate Foreign Relations Committee staff, today on this. He plans to ask Marcy when the Committee might schedule hearings on the bill. He also said he would merely mention that it was his understanding that CIA also had an interest in the bill. Leahy asked if we would be in a position to testify on the bill and I said we would not. I suggested to Leahy that before definite plans were made for hearings on the bill, I thought it would be desirable for State and ourselves to discuss this subject. Leahy readily agreed.

3. [redacted] [redacted] [redacted] called to [redacted]

4. [redacted] Mr. Paul Borel called to say that Representative Robert F. Ellsworth (R., Kans.) had written to him again asking if it would be feasible for the Agency to give to four members of Congress, who began their congressional careers at the same time as Ellsworth, briefings similar to those given him. The congressmen involved are Abner W. Sibal (R., Conn.), F. Bradford Morse (R., Mass.), Peter F. Dominick (R., Colo.), and Alphonzo Bell (R., Calif.). I advised Borel that from our standpoint we would be glad to have these members visit the Agency particularly if their visit could be arranged at the same time. We will be discussing this further with Mr. Borel.
